CQUARTZ

State of the art ceramic nanotech for every surface

CARPRO™

# THE ULTIMATE PROTECTION

C.QUARTZ

## Finest RESERVE

CQUARTZ Finest Reserve is our state-of-the-art flagship coating suited exclusively to the most skilled, hand-picked installers in the world.

EXTREMELY DENSE AND DURABLE

UNPARALLELED PERFORMANCE

HIGHLY HYDROPHOBIC: 110°; LOW SLIDING ANGLE: 10°

C.QUARTZ

## Professional

The New 2020 CQUARTZ Professional has been designed for enhanced protection of clear coat painted surfaces as well as plastic components.

INCREASED RESISTANCE TO SALT & CHEMICALS

IMPROVED WATER SPOT RESISTANCE

EXTREME DURABILITY, GLOSS & SLICKNESS

Our flagship coatings are available exclusively through our certified installers.

C.QUARTZ

## CQ.UK 3.0

CQ.UK is our most refined consumer-grade coating. It packs the highest performance figures ever, with increased resistance to salt and chemicals, as well as extreme temperature tolerance.

HIGHEST-PERFORMING CONSUMER COATING

## C.QUARTZ SIC

This new formula incorporates silicon carbide for added chemical resistance. We have also greatly improved the ease of use, resistance to water spotting and even amped up the gloss and depth.

EXTREME SMOOTHNESS & DEEP GLOSS

C.QUARTZ

## Lite

Lite is a user-friendly ceramic coating, which is super easy to apply, bridging the gap between traditional sealants and the advanced nanotechnology of CQUARTZ coatings.

EXTREMELY EASY TO APPLY

# THE WET LOOK THAT LASTS

C.QUARTZ

# BlackOut

BlackOut utilizes polysiloxane technology merged with a solvent-based acrylic resin to create an incredibly durable and stunning satin appearance for tyres, rubber, and unpainted resin materials.

**EXTREMELY DURABLE TYRE COATING**

C.QUARTZ

# Leather 2.0

The new Leather 2.0 is water-based and safe to use on all types of leather, including Nappa leather. It improves hydrophobic and self-cleaning properties, as well as protects against abrasion and stains.

**SELF-CLEANING, HYDROPHOBIC LEATHER COAT**

C.QUARTZ

# DLUX

Treat alloy wheels, faded plastic, and rubber trim with CQUARTZ DLUX to restore their rich, glossy finish, and give them the lasting hydrophobic nanotechnology protection these surfaces deserve.

**EXTREMELY DURABLE WHEELS & TRIM COATING**

C.QUARTZ

# Fabric

CQUARTZ Fabric is a dedicated, breathable coating created to protect textiles against liquids, dirt and stains. It preserves the look, texture, breathability, and color of the fabric.

**BREATHABLE, HYDROPHOBIC FABRIC COAT**

C.QUARTZ

# Skin

CQUARTZ Skin was developed for application to a wide variety of paint protection films, vinyl films, clear bra, as well as soft and hard plastic trim.

**EXTENDS LIFE OF GLOSS & MATTE FILMS**

C.QUARTZ

# Gliss

Gliss excels as a top-coat for CQUARTZ coatings, designed to enrich their rugged performance with a stunning level of slickness, gloss and smoothness.

**HYPER SLICK AND SMOOTH TOP COAT**

# PERFORMANCE COMPARISON
